

Thunderstorm Anxiety History Form

Date:

Owner:

Pet:

Age:

Breed:

M/ F/ Neutered?

When does the animal show signs of anxiety?

What signs of anxiety exist (excessive salivation, pacing, circling, hiding, staying close to owner, shaking, panting, whimpering, whining, escaping, destroying items, etc)?

Does the animal respond to a recording of a storm?

If so, how close/loud can the recording be played?

What kind of training or corrections has been attempted?

What is the pet's favorite game or thing to do?

Does it have an especially favorite treat?

Can the dog be crated (will it injure itself in a crate)?
